

## **AMENDMENT TO THE CLAIMS**

The following listing of claims will replace all prior versions, and listing of claims in the application:

### **LISTING OF CLAIMS**

1. (Currently amended) A bicycle headset assembly mounted to a steering tube extending through a head tube, the headset assembly comprising:

a race adapted to be connected to a top end of the bicycle head tube and a bearing set engaged with an inner periphery of the race, a positioning ring engaged with an inner periphery of the bearing set and the positioning ring adapted to be mounted on the steering tube, **race having a threaded outer periphery**, and

a cap **having a threaded inner periphery which is connected to the threaded outer periphery of the race,[[.connected to the race and]] the cap** pressing the positioning ring.

2. (Original) The headset assembly as claimed in claim 1, wherein the race includes a flange which is adapted to be rested on the top end of the head tube.

3. (Original) The headset assembly as claimed in claim 1, wherein the cap includes at least two flat surfaces on an outer periphery thereof.

4. (Cancelled) The headset assembly as claimed in claim 1, wherein the race has a threaded outer periphery, the cap having a threaded inner periphery which is connected to the threaded outer periphery of the race.

5. (Original) The headset assembly as claimed in claim 1 further

comprising a pressing ring adapted to mount to the steering tube and pressing on a top surface of the cap.
